

Movement that inspires.

At Kia, we believe movement inspires ideas. Great ideas come to you when you're on the move. Whether you're walking, traveling on a train or driving. It's why we create the spaces and the time you need to bring ideas to life.

The Sorento Hybrid

Movement that inspires

Be inspired by movement.
Introducing the new Kia brand.

Inspiration doesn't happen by chance. It comes to us when we get out of our comfort zone and enter new surroundings. When we see the world with fresh eyes and from new perspectives. We find it when we move. Kia is here to guide you through the inspirational power of movement so you can reach your creative potential. That's why everything we create gives you the space to be inspired and the time to bring your ideas to life. So join us on this exciting journey and discover with Kia how movement inspires.

Go your own way with the Kia Sorento Hybrid.

When life is about having it your way, without compromises, the Kia Sorento Hybrid seven-seater SUV is definitely the way to go. With lower emissions, sleek styling and a powerful drive, the Sorento Hybrid hits the mark.

Set your own standards.

Step away from the everyday and admire the design of the Kia Sorento Hybrid, with its robust, stylish features designed to perfectly match the turbocharged hybrid power. With distinctive new contours and wheel arch cladding, body colour door handles with a touch of satin chrome, sleek trim and side sills, and distinctive daylight opening graphic, the Sorento Hybrid perfectly combines on-road sophistication with off-road thrills, while at the same time producing lower emissions.

Forge your own terrain.

Wherever you're going, the Sorento Hybrid takes you there in style and comfort, with new design features that leave a lasting impression. You'll find new light technology with vertical LED tail lamps, a sporty rear skid plate and eye-catching garnish, and a slick roof spoiler in gloss finish with integrated rear wiper and designer Sorento lettering for even more presence from behind. In fact, the Sorento Hybrid makes a statement whichever way you look at it.

Pick your own horizons.

Take the Sorento Hybrid and admire its striking structured front grille, accentuated with a chrome and gloss black surround, racy front bumper with wing-shaped air intake grille and stylish front skid plate. In combination with new light technology in the full-LED front lamps, LED daytime running lights and LED fog lamps, style and substance work in perfect harmony.

Savour your own delights.

No matter where you are or where you're going, inside the newly designed Kia Sorento Hybrid you'll find the latest technology and connectivity, ergonomically combined with luxurious space, style and comfort. Ease into the high-quality interior with ambient lighting. Then there's the satin-effect dash garnish featuring 3D embossing and semi-chrome decor, as well as glossy black accents throughout the cabin to match the sporty exterior. Sit back and marvel at a 10.25" touchscreen infotainment with Apple CarPlay and Android Auto Connectivity, as well as 12.3" TFT LCD supervision cluster and enjoy the Bose® premium sound system with 12 speakers and a rotary gear shift dial. Your way, your style ... without compromise.

Do your own thing.

Open wide and imagine the possibilities. The Sorento Hybrid never shies away from adventure or the city with versatility and flexibility to match. As a seven-seater SUV, it offers the ultimate space and comfort with the individually sliding and one-touch remote-folding 60:40 splitting rear seats. Whoever is travelling with you can take advantage of space and comfort, and there's even manual air conditioning for the third-row passengers to make their ride as enjoyable as yours. After all, the Sorento Hybrid is designed to work for you and everyone with you.

Maximize your options.

When your head says let's push boundaries, the Sorento Hybrid says let's do it in style. That's why you'll find the ultimate in comfort, space and flexibility wrapped inside its bold exterior design.

3rd row folded fully flat and 2nd row partially folded (7-seater)

3rd row folded fully flat (7-seater)

3rd row partially folded (7-seater)

Seat split options

Whatever you want to carry, the Sorento Hybrid comes well prepared.

*7-seater

Smart power tailgate

Effortless loading is simple, with different tailgate height options that can be stored to suit different drivers' heights using the memory button under the tailgate. Simply press and hold the button for three seconds - it's as easy as that.

Ample luggage space

The Sorento Hybrid can be easily reconfigured to create a generous luggage hauler or explorer with up to 1,996 litres of luggage space. For easy folding of the second-row backrests straight from the tailgate area, you'll find two one-touch remote-folding buttons, one for the left and one for the right, to make it quick and simple.

Share the experience.

When you know the way you go, it's also great to know that your loved ones can share the Sorento Hybrid experience in its ergonomically designed, spacious and comfortable cabin.

Head-up display (HUD)

Stay safe and sound: to ensure you keep your eyes on the road, the HUD projects graphics and other driving-related information onto the windscreen, directly in your line of sight.

Heated and ventilated seats

Whatever the weather, when it's cold outside, the front seats can be heated. On warm days, the driver and front passenger can enjoy seats with ventilated cushions and backrests.

Power memory seats

Up to two different drivers can set their mirror and seat preferences using the integrated memory system. For added comfort and convenience both the driver and front passenger seats come with lumbar support. What's more, the driver seat has a cushion that is extendable and integrates the far-side airbag, which prevents the driver's and passenger's heads coming into contact in the event of a collision.

Mood lighting

For the perfect atmosphere, you'll find mood lighting in the doors and under the dash, with a choice of several different colours to suit your mood and make every trip as peaceful or exciting as you want to make it.

360° Surround View Monitor

Assurance all round: this intuitive system combines four wide-angle images from cameras on the front, rear and sides of the vehicle to give you a comprehensive bird's-eye view of the space around the Sorento Hybrid while parking or moving at speeds below 20km/h.

10.25" touchscreen infotainment

Select your destination via the highly visible frameless touchscreen infotainment system that is compatible with Android Auto and Apple Car Play.

Stay constantly connected.

From the moment you sit inside the Kia Sorento Hybrid you'll discover an array of the latest information and entertainment technology, designed to put you in complete control for whatever adventures lie ahead.

BOSE premium 12 speaker sound system

Experience the very best in-car entertainment with 12 speakers, an external amplifier and cutting-edge technology. Transform any stereo or multichannel audio source into an astounding surround sound experience.

Wireless smartphone charger

Forget cables ... you can charge your mobile phone wirelessly and effortlessly by placing it on the charging pad at the front of the centre console.

USB Ports and Power for all

Both the first-row seatbacks have integrated USB charging ports for the use of first and second-row passengers. Additionally, the cargo area features USB charging ports on each side for the third-row passengers. What's more, the rear centre console has a USB charge port and 12 V socket as well - perfect for playing games and charging.

Expect the unexpected.

No one knows what the road or journey ahead can throw at us, and that's why the Sorento Hybrid comes with highly refined solutions for a safer journey.

Blind-Spot Collision-Avoidance Assist (BCA)

When you want to change lane, the Blind-Spot Collision-Avoidance Assist system detects any vehicle(s) in your blind spot and alerts you with a warning symbol in your side mirror and on the head-up display inside the car. Should you start to change lane while a car is in your blind spot, the Sorento Hybrid will automatically apply the brakes to avoid a collision, the side mirror and head-up warning symbols will flash and an audible alert will sound.

Blind-Spot View Monitor (BVM)

Designed to improve visibility for blind spots, the BVM uses side cameras so that when you indicate left or right, your instrument cluster will show the view of the road in your blind spot. Indicate left and it will show you the rear view down your left-hand side; indicate right and it will show the right-side view.

Safe Exit Assist (SEA)

Designed to help prevent rear passengers from exiting the vehicle when the system detects potential hazards approaching. If that happens, the system will engage the power locks and give an audible and visual alert.

Multi-Collision Brake (MCB)

If your airbag is fired in response to a primary collision, a signal is immediately sent to the Electronic Stability Control system to brake your vehicle. MCB applies your brakes to prevent a subsequent collision or mitigate its impact.

Forward Collision-Avoidance Assist (FCA)

Evaluating both camera and radar data from your vehicle, the FCA system analyses information about other cars, pedestrians or cyclists crossing the road to avoid a potential collision with them. FCA also functions to prevent collisions with vehicles when making a left turn at an intersection. If it detects a potential collision, a warning signal appears on your instrument cluster and maximum braking power is applied.

Putting you in control.

Whether short or long, it's good to know that on every journey you take, your Kia Sorento Hybrid is helping to keep you and your passengers safe and secure.

High Beam Assist (HBA)

When conditions allow, the Sorento Hybrid will turn on its high beams automatically. When the camera in the windscreen detects the headlights of an oncoming vehicle at night, the High Beam Assist system automatically switches to low beam to avoid dazzling other drivers.

Lane Following Assist (LFA)

Kia's level 2 autonomous driving system takes a giant leap towards semi-automated driving. In collaboration with Smart Cruise Control, LFA controls acceleration, braking and steering depending on the vehicles in front. This makes driving in traffic jams easier and safer. The system uses camera and radar sensors to maintain a safe distance to the preceding vehicle and monitors road markings to keep your car in the centre of your lane. LFA works between 0 and 180 km/h.

Lane Keeping Assist (LKA)

At your side to keep you focused: a camera at the front of the car monitors lane markings, and if the driver moves out of the lane unintentionally, LKA alerts you and even steers you back to your lane.

Smart Cruise Control (SCC)

Using camera and radar, SCC maintains your set speed, ensuring a safe distance between you and the vehicle ahead. It also controls acceleration and deceleration to ensure your vehicle stops when the vehicle ahead does and then moves off when the other vehicle moves again. What's more, SCC is navigation-assisted and uses ADAS map information, allowing it to automatically decelerate your speed on any bends for added safety and to keep within the speed limit.

Driver Attention Warning (DAW)

DAW monitors your steering wheel, indicator and acceleration patterns and warns you if you're losing concentration. For example, when in traffic, if the car in front of you drives away and you don't move, it will alert you; or if you're showing signs of drowsiness, DAW will encourage you to take a break.

Knowledge is power.

Launch

When starting out from a stop, the hybrid system relies entirely on power from the electric motor. This helps reduce fuel use in stop-and-go traffic.

Gentle acceleration

During mild acceleration, the system also uses power exclusively from the electric motor. It has ample pickup to help you increase your speed.

Full acceleration

When accelerating harder, the petrol engine works together with the electric motor to get the car to the desired speed.

Gentle acceleration

When cruising at relatively constant speeds, the system goes into power-assist mode, where the petrol engine is the main source of drive power.

Deceleration

The system's regenerative braking takes advantage of every decrease in vehicle speed, capturing energy and storing it in the battery for future use.

12.3" TFT LCD supervision cluster

An intelligently designed, customizable supervision cluster provides temperature information, tyre pressure alerts, and other essential vehicle and trip information. It also displays the status of the hybrid charging system, including fuel and battery levels and use. Its high-resolution screen makes it easy to read a wealth of information at a glance.

10.25" touchscreen infotainment with Apple CarPlay and Android Auto Connectivity

Easy to read and use, the colour touch screen shows routes, shortest path options and other vital information. It can display the Sorento Hybrid powertrain energy flow and allows you to monitor up-to-the-minute information like current driving mode, fuel economy and electric motor use. The screen can be split in two for easy access to different apps, vehicle information and multimedia content.

Drive with passion.

Go your own way with a range of the latest dynamic engine options. The seven-seat Sorento Hybrid features a 1.6 T-GDi HEV electrified petrol engine.

Drive Mode Select (DMS)

The new automatic transmission offers a choice of drive modes that allow you to customize the powertrain's responses to driver inputs, enhancing your fuel economy or acceleration. The Drive Mode Select system also adapts the weight of the rack-mounted power steering system, for more relaxed or more immediate, engaging steering responses.

Paddle shifters

Refined, chrome-finished paddle shifters coordinate with the rest of the cabin's design and allow you to change gears swiftly without taking your hands off the steering wheel. They also boost driving dynamics, making it effortless to increase torque faster, while staying in control.

Rotary gear shift dial

Located centrally and within easy reach, the rotary dial operates using shift-by-wire technology, enabling effortless gear shifting. Just as importantly from a safety perspective, it will automatically shift to the parking gear P if the driver forgets. **Automatic transmission (AT).** The Sorento Hybrid come with six-speed automatic transmission, ensuring a smooth transition between gear changes.

Style from the inside.

All interior materials were designed for durability, ease of cleaning, and long-lasting, unfading color.

For that stylish finishing touch, all leather seats come with brushed TOM film garnish and 3D embossing.

Black Leather

Make your statement.

With nine distinctive body colours and the 17" alloy wheels, there's a Sorento Hybrid waiting for you to personalize it to your taste.

17" alloy wheel

Cycle & Carriage Aftersales Service keeps your car in its prime.

We care for you the same way we care for our family. Experience the Cycle & Carriage Kia Service spirit as we welcome you at our Kia Authorised Service Centres.

With more than a century in the automotive industry, we can assure you that you will enjoy the most comprehensive customer support and exceptional service experience by well-trained professionals, using state-of-the-art technologies, diagnostic tools and genuine parts to keep your Kia vehicle running in peak condition. All Kia genuine parts come with 2 years or 40,000km (whichever comes first) warranty.

This is our commitment to you.

Industry-leading warranty.

We are confident of the quality and durability of every Kia vehicle, having undergone stringent pre-delivery processes and checks before being delivered in pristine condition. We are so confident that your new Kia car will enjoy a 5-year unlimited mileage warranty and a 10-year engine warranty.

From the date of registration, your new Kia car is covered against defects in materials and workmanship for a period of 5 years of factory unlimited mileage.

On top of that, starting from 1 June 2014, your Kia car will come with a 10-year engine warranty, subject to a maximum mileage of 200,000km or 10 years, whichever is earlier. This engine warranty from Cycle & Carriage will take effect immediately after the expiry of the manufacturer's.
